

THE AUSTRIAN DEFEAT IN ALBANIA IS TERRIBLE ROUT

PROFITEERS WILL BE FORCED TO DISGORGE SOON

Profiteers Will Bear Brunt of New Taxes

(By United Press)
Washington, July 12—It is now indicated that profiteers will bear the heaviest taxes under the new tax bill. Luxuries used by the people will become the second consideration.

Governor Ignores Contempt Proceedings

(By United Press)
St. Paul, July 12—Governor Burnquist, cited with other state and military officers for contempt of court, wired from his summer home this afternoon that he would not appear in court as ordered. He says the people vested in him through the constitution solely the duties of the commander-in-chief of the military forces. If he appeared answering the court order it would be to admit as many commanders in chief as there are judges of courts.

French Capture Village of Longont

Paris, July 12—Official—The French driving forward captured the village of Longont.

CZECHO-SLOVAKS WIN

WREST ALL OF WESTERN SIBERIA FROM THE BOLSHIEVSKI.

Also Obtain Control of Long Stretch of the Trans-Siberian Railway.

London, July 12—Virtually all of Western Siberia is in control of the Czechoslovaks, according to a Reuter dispatch from Peking.

The dispatch states the Bolsheviks have been overthrown in the whole region from Tobolsk, east of the Urals, to Semipalatinsk, 750 miles to the southeast, near the Chinese frontier.

The Trans-Siberian railway is under Czechoslovak control from Tcheliabinsk, in the Ural mountains at the junction of the branches of the roads which lead to south and north Russia, to Krasnoyarsk, 1,300 miles to the east.

The report confirms earlier dispatches to the effect that the Bolsheviks at Irkutsk have been defeated by the Czechoslovaks.

Bolsheviks Claim Victories.

In the meantime, the Bolshevik forces have taken the offensive against the Czechoslovak army in the Volga region and the government troops have won a great success, according to a Russian official statement received here by wireless today from Moscow. The Czechoslovaks in Siberia also are reported to be retreating before a counter offensive of Russian Bolsheviks.

Returns Medals to Kaiser.

Christiania, July 12—Hans Olsen, one of Norway's best known pilots who for years piloted the German emperor's yacht on its summer cruise in Norwegian waters, has returned to the German legation the numerous decorations given him by the emperor. He wrote the German minister that the decorations were returned as a protest against the shameful murder and cruel massacres of Norwegian sailors, many of them his friends, by German submarines.

Orders Speedier Coal Movement.

New York, July 12—A drive for speedier movement of coal to the Atlantic seaboard was inaugurated by A. H. Smith, regional director of Eastern railroads. In a message to federal managers and general managers of carriers in the eastern district Mr. Smith said the usual summer slump in coal production must be avoided. Coal production during the fortnight ending June 15 was the largest in the country's history, Mr. Smith said, but there has since been a rapid decline "due to decreased car supply."

GERMAN PATROL BADLY DEFEATED

AMERICANS ROUT LARGE ENEMY ATTACKING FORCE IN THE MARNE SECTOR.

IN HONOR OF MARINES

French Renamed Belleau Wood on Account of Valiant Services of Americans—Yankee Flyer Downs Foe Observation Planes.

With the American Forces on the Marne, July 12—A large German patrol which attempted to raid the American trenches on the Marne front was broken up and routed in confusion. The Germans left several dead, which aided the Americans in establishing the identification of new German units. The weather was cloudy, showery and windy and did not permit much airplane observation. The artillery action continues normal.

Belleau Wood Named for Marines.

In recognition of the valiant services of the American troops when they stopped the German rush on Paris in the second battle of the Marne, capturing Bois de Belleau, routing the German machine gun nests and establishing themselves in commanding positions on the Marne sector, the French authorities have officially changed the name Bois de Belleau to Bois de la Brigade de Marne, and have ordered all maps changed accordingly.

American Fliers Down Foe Planes.

With the American Army in France, July 12—American pursuit planes interrupted German observation and photograph work behind the American lines.

Lieutenants Edgar Tobin of San Antonio, Texas, and Edgar Jones of Chicago, attacked a biplane over Fliers, at an altitude of 3,000 yards. They dove after him four times down to a thousand sand yards when he fell over Thiaucourt.

Lieut. Charles T. Merrick of Eldora, Iowa, attacked another biplane north of Fliers. The German went sliding down on his wing and was reported later by another American flier as having fallen in flames.

Pursuit planes also attacked the enemy's observation balloons which were hastily pulled down.

BANDITS ELUDE THEIR PURSUERS

Secure Little Loot in Robbery of Train in Kansas.

Paola, Kan., July 12—After several hours' search, Home Guards, sheriff's posse and volunteers, numbering 250, returned to their homes without having found a trace of the bandits who conducted the spectacular midnight robbery near here of a fast passenger train on the Missouri, Kansas & Texas railway.

It is believed the bandits, who escaped in a motor car, are in Kansas City.

According to postal and express company employees the mail and express cars, which the bandits detached from the train and later ransacked, yielded them but a small amount.

Four persons on the train were wounded during the shooting. All will recover.

LAY IMMENSE MINE FIELDS

British System Extends From Scotland to Norway.

London, July 12—In referring to the great mine fields which were notably restricting the submarines, Sir Eric Geddes, first lord of the admiralty, told the house of commons they stretched from Norway to the north coast of Scotland. There was a barrage across the Straits of Dover, he added, and mines in Helgoland light. Some of the fastest and best craft of the navy had gone into the light at night to lay them, he said.

55,185 Men in Marine Corps.

Washington, July 12—Marine corps officers and men now number 55,185. An announcement from the marine headquarters says since July 1, 2,260 enlistment papers have been received at headquarters, and it is estimated 3,000 are pending at recruit depots.

Press Undisturbed Under Wire Control

Washington, July 12—The president has assured congressional leaders that press associations and press bureau business will be left undisturbed if given wire control. He said he wanted the senate to know this to quiet the impression that Burleson could establish a censorship if wire control was established.

Germany Asked \$3,650,000,000 War Indemnity of Russia

(By United Press)
Copenhagen, July 12—Russian newspapers assert that Germany asked a war indemnity of three billion six hundred million from Russia.

Turkish Regulars Responsible For Tabriz Outrages

(By United Press)
Washington July 12—Turkish regulars are responsible for the outrages against the property of Americans at Tabriz, the state department learned officially from Spain. This tends to aggravate the situation. If Turkey corroborates the information, it will probably prove a cause for war. Sweden through whom inquiries were also made reported here the inquiries had been delayed, but thought the Turks were uninformed regarding the actual situation.

Berlin Reports Capture of American Airmen

(By United Press)
Berlin, July 12—Official—Five airplanes of an American squadron intending to raid Coblentz have been captured and the crews imprisoned.

(By United Press)

With the French Afield, July 12—Letters taken from German prisoners captured in the American sectors do not make a secret of the terrible losses inflicted by the American ordnance.

PRINCE LICHNOWSKY
May be expelled by Prussian house of lords in secret session.

A secret session will be held soon by the Prussian house of lords, even functionaries and ushers being excluded. It is expected the dismissal of Prince Lichnowsky from the body will be discussed and decided at the meeting. Prince Lichnowsky was German ambassador at London at the outbreak of the war. In March of this year he issued a memorandum criticizing the German foreign policy, blaming the German government for starting the war and saying that England did everything to avert hostilities.

GERMANY MAKES STRONG DEMAND

INSISTS UPON HOLLAND SUPPLYING LARGE AMOUNT OF FOOD NECESSITIES.

SPIES FURNISH DATA

Berlin Insists Upon Dutch Government Sending 60,000 Cows, 3,000 Horses, 10,000 Tons of Cheese, 2,000,000 Eggs and Other Supplies.

Amsterdam, July 12—According to the Telegraaf, Germany has demanded from Holland 60,000 cows, 3,000 horses, 10,000 tons of cheese, 2,000,000 eggs, 15 tons of fatty products, a large quantity of poultry, 3,000 tons of sugar and 200,000 hides.

In addition, Germany also wants a certain amount of quinine, while from the Dutch colonies an additional credit of 7,000,000 florins monthly is desired.

The newspaper says the demands were made by Germany as a result of an inquiry in the country districts of Holland by a swarm of economic spies, and must be met before questions of German counter-concessions can be considered.

Cienna Food Ration Less.

Amsterdam, July 12—The alarming state of the food situation in Vienna is described in a dispatch to the Berlin Tageblatt from its Vienna correspondent, who says:

"The daily rations per head are fixed at approximately three ounces of bread and four substitutes; one ounce of meat, less than a quarter of fat; two and a half ounces of potatoes, three-quarter ounces of jam and a quarter of an ounce of war coffee, making the total daily allowance seven and three-quarters ounces."

These rations may be supplemented by recourse to secret channels and by the payment of exorbitant prices, the correspondent declares. For example, flour can be secured by paying the equivalent of from \$4.50 to \$5 a pound; meat at from \$5.75 to \$7, and horse flesh at \$3.50 a pound. Meals at the middle class restaurants cost \$3.50.

Bad Weather to Prolong Famine.

Zurich, July 12—The Hungarian food administrator, Herr Paul, has informed the correspondent at Budapest of the Vienna newspaper, Die Zeit, that there is no hope at present of obtaining any foodstuffs from Romania or Ukraine while the cold, wet weather in Austria-Hungary has retarded the harvest there. Normal rations of bread and flour, the minister said, certainly could not be resumed before the end of August.

Army of Peasants Threaten Moscow

(By United Press)
Stockholm, July 12—An enormous army composed mostly of peasants and led by Tchiernoff, leader of the social revolutionaries, have reached the outskirts of Moscow, a dispatch from there says.

Germany Ready to Consider Peace

(By United Press)
London, July 12—Germany's leaders, military and political, are ready to consider sincere peace proposals. Chancellor Hertling told the Reichstag.

(By United Press)
Rome, July 12—Austria's defeat in Albania is proportionately as large a rout as on the Piave course. In the three days advance of twenty to twenty-five miles, the allies swept forward irresistibly occupying the whole southern bank of the Somini. The Italians have almost entirely enveloped the City of Berat, whose surrender is expected momentarily.

Activity Developing on Balkan Front

(By United Press)
London, July 12—Activity is developing on the entire Balkan front, and there are increasing indications that the Albanian fighting will soon spread to the entire three hundred mile front from the Adriatic to the Gulf of Rendina. The Italians have crossed the Somini river at several points.

German Patrol Repulsed on Marne

BY FRED S. FERGUSON,
(United Press Staff Correspondent)
With the Americans on the Marne, July 12—A large German patrol attempting a raid on the American line near Chateau Thierry was repulsed sanguinarily. The presence of new enemy units on this sector was revealed through identifying the dead. There is harassing artillery fire on the various parts of the sector, but aside from the raid no infantry attacks were made.

Civilians are Being Expelled From Zeebrugge

(By United Press)
Amsterdam, July 12—Reports from the Belgian frontier says that civilians are being forced from Zeebrugge. This information is unexplainable, except the Germans thought the civilians acted as spies during the recent raids or that the Germans are using them for laborers.

**Dental Truck Is Provided
for the United States Army.**

The government has recently been
presented with a dental truck which
is remarkable for its completeness and
the ingenuity of its design. It is illus-
trated in an article in Popular Me-
chanics Magazine. Attached to either
side of the body and mounted on
frames that fold up, jackknife fashion,
are tents that can be opened quickly
when the car is at rest. These are
used as living quarters for the men in
charge and for professional work. One
is equipped with a portable dental
chair and an oil heater.

The body of the car is equipped with
a regulation dental chair, a gas-admin-
istering outfit, spacious cabinets for
instruments, a washbasin, thirty-gallon
water tank, rotary pump, etc. Acety-
lene gas is supplied from compression
tanks for lights, a heater and a braz-
ing torch. Storage batteries supply
current for auxiliary lights, a dental
type and an electric engine.

Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible
any more than barren ground can yield rich crop.

But how advertising does make things hum
when the product and proposition are right, the
men and methods above board, when there's an
honest purpose and earnest effort from bundle
boy to general manager to serve efficiency, to
deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue
your organization with the spirit of true service,
make your business worthy of the good will,
the confidence, the patronage of the people.

In this fertile field then sow the seed of ad-
vertising and it will bring forth abundant crops
in increased business and augmented prestige.

Your store news in the Dispatch will be read
in practically every home in Brainerd and vicin-
ity every evening.

U. S. Religious Population.

The government does not include re-
ligious matters in census figures, so
church statistics vary somewhat ac-
cording to source. World Almanac for
1918 gives total of all communicants
in the United States as slightly over
40,000,000. Of which Roman Catholics
are 14,300,000 in round numbers; Meth-
odists of sixteen branches, 7,600,000;
Baptists of fifteen branches, 6,500,000;
Lutherans of twenty-one branches, 2-
450,000; Presbyterians of twelve
branches, 2,200,000; Disciples of Christ
1,340,000; Episcopalians, 1,100,000;
Congregationalists, 800,000; Reformed,
500,000; Latter Day Saints, 400,000;
United Brethren, 370,000. Remainder
of 40,000,000 is made up of numerous
small church bodies. Catholic Direc-
tory for 1917 gives total Catholic popu-
lation of the United States as over
17,000,000.—The Pathfinder.

Bad Kidneys Laid Him Up

A slight kidney impairment may lead to dropsy or Bright's disease. Don't neglect it. Frank Miller, Bingham, Utah, writes: "Was troubled with my kidneys so bad I could not work. Tried many kinds of medicine which did me no good. Then I tried Foley Kidney Pills; now feeling as good as I ever did before." H. P. Dunn, druggist.

EAT OLD POTATOES UNTIL AFTER JULY 20

The Food Administration wishes that no new potatoes be used until after July 20 thereby giving the people a chance to use all the old potatoes before we start to use the new crop.

The Food Administration have asked this through the press but still we find that some merchants have new potatoes on display in their windows, and that people buy them against the Food Administration's wishes. Now there is no reason for this. The new potatoes cost you at the rate of \$2.10 per bushel or more and the old potatoes you can buy at about 50 or 60 cents per bushel, besides you are wasting food every time you buy new potatoes as long as we have good old potatoes on hand.

Now if you good people have more money than you know what to do with, buy War Saving Stamps or Bonds, but do not pay \$2.10 for a bushel of potatoes when you can get better potatoes for 50 or 60 cents. Any one who handles for sale or buys new potatoes until after July 20th is not playing this game fair and if you can't play this game fair you better go to the Kaiser's land where no games are played fair.

County Food Administrator.

AMUSEMENTS

At the Best Tomorrow

"American Buds" a William Fox romantic drama featuring Jane and Katherine Lee, the former upsetting the plans of a German spy, will be the feature of the program for Saturday at the Best theatre. The other numbers on the bill are a 2 reel comedy, "Chased into Love." There will be three showings daily, at 3:00 and 7:45 and 9:15 p. m.

The Lee children, who have been widely advertised as the Fox "Baby Grands" and who have been seen previously as stars in "Two Little Imps" and "Troublemakers" appear in "American Buds" as orphans, the scenes being laid in an orphanage and subsequently in an army camp. In both places the children devote themselves principally to stirring up trouble. Indeed, the action hinges chiefly on the troublesome question of their parentage.

Aside from the fun features developed by the pranks of Jane and Katherine there is said to be a strong plot covering the dramatic phases of the production. A colonel's daughter is courted by an army captain and by a former Austrian officer, now doing duty as a spy. The captain, who is conducting important experiments for the Government, wins the girl, but the engagement is broken when it seems to be established that he is the children's father. Matters are straightened out by the spy's attempt to steal a report of the captain's experimental work. Jane detects him and raises an outcry which results in his being shot and in a death bed confession that he is the father of the children and that their mother is an older daughter of the colonel.

"Oh, Boy"

One of the rare treats of many seasons is "Oh, Boy" that smart, bright musical comedy which F. Ray Comstock and William Elliott presented in New York two seasons ago where it has been playing to absolute capacity business at the Princess theatre with no let-up in sight.

"Oh, Boy" will come to the Brainerd opera house Friday evening, July 19, with the special Chicago company which has been playing at the LaSalle theatre for more than six months

with a cast headed by Joseph Santley, Dorothy Maynard, Laurance Wheat, Hugo Cameron, James Bradbury, Henry Dornon, Lenore Chippendale, Lillian Brennan and forty others.

The captivating tunes of "Oh, Boy" have been whistled, sung and danced to more than any other music since the days of "Floradora." It is without doubt the greatest "knockout" in musical way in the past twenty-five years and boasts of the prettiest girls ever gathered together in any one organization.

At the Best Tonight

Still on the Job.
"The old-fashioned door-knocker seems to have gone out of style," remarked the Observer of Events and Things, "but, don't make any mistake, opportunity is still on the job."

The Idea.

"I see where Smythe has got into trouble by an abusive letter to the man who injured him." "That's so. Justice does not always allow a man to write his wrongs."

Best Methods.

An ounce of prevention is worth—well, you know what it is. The best way to put out a fire is not to let it start. The best way to cure a cold is not to have one.

Strength of Character.

Sometimes a man gives himself credit for strength of character merely because he is willing to hold up the entire glee club till he finds the chord on his own little ukulele.

SET PRICE ON WOOD

Coal prices are set by the government. Wood prices should be set too. Brainerd last year was paying ever increasing prices for wood and at some stages of the winter the farmers absolutely refused to haul.

Tamarack sold at \$7.50 and over a cord. Some farmers sold by the "load," which is an indefinite way of disposing of fuel.

A switch from coal to wood fuel will prove a hardship for many, but notice has been given this early so that people may provide for the contingency. It is a war measure and war comes first.

The fuel situation is like that of the manufacture of essentials and non-essentials. Mr. Garfield has ascertained that to prohibit the manufacture of pianos, for instance, in a community devoted to this line, is to deprive whole towns of the means of gaining a living.

In the same way the fuel situation is one that varies in different localities. The government wants no one to starve or freeze and the fuel situation in Crow Wing county will ultimately work itself out without serious hardship to anyone.

The county was put on a wood fuel basis following a survey made by the forestry branch. It should be cut now so as to be in shape for use this winter. Take a census of Brainerd and you will find that many far-seeing citizens early took into consideration the coal question and have already secured part of their winter's supply of wood.

OFFENSIVE UNDER WAY

General Foch is carrying on the war in the enemy's country. He is not waiting for things to happen, but is pushing on wherever a hated "Pickelhaube" is in evidence.

On the western front the Hindenburg line has been bumped on one salient after another and enemy captures made. It is causing the Germans to realize that the Americans are at war and regardless of any commanders' lies the Hun soldiers are finding out for themselves that the Americans are coming across in spite of the submarine offensive.

The drive in Albania, joined in by Albanians themselves, is giving the German general staff something to think about.

The Dispatch asserts today, and it's no war expert either and its guesses hit it oftener than a self-styled war expert, that the war will be over before the end of 1919. Germany and Austro-Hungary have commenced to crack right now.

GOOD MEN, BOTH OF THEM

Julie M. Hammaford has been named federal manager in charge of the Northern Pacific. He is a good man, worked his way up in the ranks and at one time was at work in the headquarters building in Brainerd. Every worker on the N. P. knows he will make good.

Howard Elliott has been named president of the Northern Pacific. He

headed the N. P. in that capacity years ago and made a record of work well done and then rehabilitated railways in the east. He has wide experience and is an excellent man.

The Northern Pacific, the government, the territory served, may all consider themselves fortunate with two men like these at the helm.

BUG IN THE WHEAT

The Dispatch will send to the University Farm a sample of the havoc wrought to wheat by a mysterious bug and from the University ascertain the best way of combating the evil. Wheat has been affected at the first joint and practically killed. It is in a crisis like this that the University steps in and aids the farmers. An early reply is expected.

Any farmers having the new pest in their wheat should report to the Dispatch and a campaign will be inaugurated to stamp out the evil. Wheat was not raised in Crow Wing county for any bugs to finish it.

ITALIANS TAKE BERAT FROM FOE

AUSTRIANS, RETIRING UNDER PRESSURE, SURRENDER TOWN AND ARE IN RETREAT.

FRENCH TAKE CORCY

Bulgarians Attempt to Draw Allied Attention From Albania and Are Repulsed With Heavy Losses North of Monastir.

London, July 12.—The Austrian troops in Albania, under Franco-Italian pressure, have retired beyond the Berat river in the direction of the Skumbi river and Elbasan, the nearest natural defense northward.

The evacuation of Berat, announced from Vienna, probably was due to the Italian progress around Piri and the French advance between Lake Ochrida and the Tormorica valley, up which the Austrians also are retreating, pursued by the Allied forces.

The fighting in the Macedonian theatre has spread eastward and the Bulgarians are making strong attacks north of Monastir, apparently to draw Allied attention from Albania. The Bulgarians were repulsed with heavy losses by the French. There is great danger that the Bulgarian line east of Lake Ochrida will be outflanked should the Allied forces reach the Skumbi at Elbasan.

French Improve Defenses.

The French continued their jamming tactics on the westerly side of the Marne salient southwest of Soissons, capturing the town and railway station of Corcy and the farm and Chateau of St. Paul, south of the city.

The gain of ground serves still further to protect the forest of Villers Cotterets (otherwise called the Reiz forest) which forms a bulwark of the defense of Compeigne the important French base and railway junction on the east of that town.

British Push Forward.

On the British front south of the Somme, Field Marshal Sir Douglas Haig's infantry pushed still further forward and won additional holding ground east of Villers Brotonneux, on the ridge which stands as an important eastward defense of the Allied base at Amiens.

Raiding operations comprised the major portion of the activities on the remainder of the Allied front.

Drive Continues 4 Days.

The operation on the French front, resulting in the capture of Corcy, gains in interest, in that it represents a continuation of a series of important local attacks on this front between the Aisne and the Marne, begun by General Petain four days ago. It is along this line that the Allies apparently count it quite probable that the Germans will resume their offensive.

18 AMERICANS DIE IN ACTION

Casualty List Also Gives Names of 45 Wounded.

Washington, July 12.—The last marine corps casualty list contained 35 names, divided as follows: Killed in action, 13; died of wounds, 4; wounded severely, 18.

The army casualty list contained 68 names, divided as follows: Killed in action, 5; died of wounds, 10; died of disease, 2; died of accident and other causes, 1; wounded severely, 26; wounded slightly, 1; missing in action, 23.

No Minnesota, North Dakota or South Dakota names appear on the list.

CHEWING GUM FOR TOMMIE

New York, July 12.—J. F. Bresnahan, vice president of the American Chicle company, said an order had been received from the British government for \$350,000 worth of chewing gum. The gum, amounting to 77,000,000 pieces, is for the use of the British army in France.

CANNOT DELAY THE DRAFT CALL

Military Program Is More Important Than Harvest.

Washington, July 12.—In response to a request for postponement of the July draft call in the Northwest, where wheat is ready for harvest, Provost Marshal General Crowder has informed the Department of Agriculture that the military program will not permit of delay in filling the monthly demand for drafted men.

Farmers and farm organizations of the Northwest had appealed for aid. When Assistant Secretary Qualey took up the question with General Crowder he found that the situation had been canvassed thoroughly before the July call was placed, and that to relieve conditions in the spring wheat states as far as possible entrapment in that section was ordered to begin July 22 instead of July 5 and 15 as elsewhere.

DIVER CAMPAIGN IS DEFEATED

Italians Doubt That Germany Will Desert Austria.

Southampton, Eng., July 12.—Viscount Jellicoe, of Scapa, former first sea lord, speaking here, said:

"I made a prophecy somewhat guardedly some time ago that the submarine campaign would be defeated in August. I did not know at the time that my words would be quoted in every newspaper in the kingdom or perhaps I would not have spoken in such assured terms. Today, however, although ships are still being sunk, they are not being destroyed as fast as we are building them, while German submarines are building them. That is what I meant when I said that the submarine campaign would be defeated."

PEOPLE WILL GO BAREFOOT

German Public Is Warned That Materials Are Scarce.

London, July 12.—"We warn you to go barefooted!" is a notice to the Berlin public published by the German clothing department, as quoted in an Exchange Telegraph dispatch from Amsterdam.

"We notice," continues the warning, "that recently many people have been going about shoeless and stockingless. This is a holy example which every one must follow. Unless our stocks of wool are to go to waste the practice must become increasingly popular, otherwise compulsion will be resorted to."

ALL HAD TRAGIC HISTORY

Carolina the Last of a Quartet of Ships That Seemed to Be Doomed to Misfortune.

"The sinking of the Carolina by a German U-boat removed the last of a quartet of ships that have had a tragic history," remarked Brooks Amis of Baltimore, a former resident of Washington, at the Willard, according to the Washington Post. "The Carolina was formerly the Grand Duchess, built for the Plant line in 1896. She made her first trip from Boston to Halifax and two years later she was taken over by the government to be used as transport in the Spanish-American war. Her maiden voyage in the transport service was from Charleston, S. C., carrying a regiment of Wisconsin troops and high army officers to Porto Rico."

"General Miles a short time before had been placed in command of the American army and he left Washington with members of his staff early in July. At Charleston General Miles went on board the Yale, which had been the City of Paris of the Ameri-

can line. He left Gen. Roy Stone of his staff at Charleston to recruit a gang of laborers for the army in Porto Rico. General Miles proceeded to Cuba on the Yale and after staying there a few days went to Guanica on the southern coast of Porto Rico. It was while he was lying in the wonderful little harbor of Guanica on board the Cherokee, the Yale being too large to enter the harbor, that he was joined by members of his staff who had sailed on the Grand Duchess. The Cherokee, another Plant liner, took the staff to Ponce, and among others on that vessel was the late Richard Harding Davis, who had sailed from Cuba on a dispatch boat. The Cherokee arrived off Ponce the next morning to find that the city had been taken the previous day by an ensign of the navy in a dispatch yacht.

"A few days later the protocol ending the war was declared and most of the members of the Miles party sailed back for the States on the Ogdan, a transport that had been purchased from the Holland-American line."

"The curious part of the thing is that the Yale was sunk in some manner; the Ogdan ran ashore off the coast of Cuba while in the transport service; the Cherokee foundered somewhere in the Atlantic and now the Grand Duchess, christened the Carolina, has been sent to the bottom by a German U-boat."

SAYS FIGHT MUST CONTINUE

Count Von Hertling Asserts Allies Are Responsible.

Paris, July 12.—Speaking before the main committee of the Reichstag, the imperial chancellor, Von Hertling, said that there would be no change in the foreign policy of the empire, citing as proof of this the German answer to the note from Pope Benedict, according to advices from Basel.

"Before the persistent will of the enemy to destroy her, manifested recently by the speeches of President Wilson and Foreign Secretary Balfour," he said, "Germany, although ready to accept a proposition for serious negotiations must go on fighting."

TRIPLE TRAGEDY ON FARM

Circumstances Indicate Case of Murder and Suicide.

Waukesha, Wis., July 12.—A triple tragedy resulting in the deaths of William Hille, his sister Hulda and Ernest Fenze was revealed at the Hille Stock farm several miles southwest of here on the arrival of the coroner. Hille, who was believed to have been mentally unbalanced, is thought to have shot and killed Fenze and his sister and then committed suicide.

Evidence of poisoning was found in Miss Hille's body. Several horses were found to have been shot. Hille and his sister were about 60 years old.

TAKES SHIP FROM U-BOAT

Norwegian Destroyer Recaptures Vessel From Submarine.

Copenhagen, July 12.—A Norwegian destroyer recaptured a Norwegian steamer which was being taken into port by a prize crew from a German submarine, according to dispatches received here. The submarine held up the small steamer Hanka off Riser, 100 miles southwest of Christiania. As the Hanka was being taken toward the German coast the Norwegian destroyer appeared and started in pursuit. She overtook the Hanka and brought her back into port.

WATER POWER NOT NEEDED FOR WAR

DEDUCTION FROM FACT THAT ADMINISTRATION HAS NOT URGED THE MEASURES.

WILLIAMS ON THE GERMANS

Mississippi Senator Declares They Are Not "Supermen" and Have Not Surprised Us—Nelson and Vardaman Conflict on Reducing Draft Age.

By ARTHUR W. DUNN.

Washington.—It is doubtful if water power legislation is longer to be classed as a necessary war measure. It is hoped that the war will be over before water power could develop to such an extent as to aid in bringing forth additional materials to be used in support of the war. There were certain conservation bills, oil leasing bills, legislation providing for the use of many materials on the public domain which have not heretofore been developed. It was argued in pressing this legislation, under protest in several cases, that these materials and resources would be beneficial in the war. It is a fact that any legislation which the administration deems necessary for the war has been passed. As the administration has not insisted upon the water power bill before the congressional recess, it is quite probable it is no longer considered one of the war measures.

Senator Williams of Mississippi rather resents the idea promulgated in certain quarters that the Germans are "supermen" of some sort and have surprised us by their activity and successes. Replying to innuendoes of this kind in the senate recently, he said: "They have not surprised us; we have surprised them in every inning of the game. They were surprised because Belgium fought instead of letting their armies pass through; they were surprised because Great Britain went to the front and defended Belgian neutrality; they were surprised when Serbia fought."

The Mississippi senator enumerated a number of other surprises that the Germans had met with and which had upset their calculations for world dominion. Going further in regard to the declaration that the German was a superman, he said: "I know him. I have known him in his own country and I know him here. He is slow; he is stupid; it takes him a long time to catch on." And considerable more of the same sort. Williams was willing to admit that the Germans made a good fighting machine after they were educated and trained to it.

There were colors in the senate galleries the day it was expected that the vote would be taken on the suffrage amendment. The two factions were out in force and the galleries of the senate were turned over to the women. Very few were males were able to get in. There are the National Woman Suffrage association, and the Woman's National party, two factions of the suffrage movement, but they all wear the same colors, purple and yellow. Then there are the anti-suffrage women, led by Mrs. James W. Wadsworth, wife of the New York senator, and they wear a red rose to show their sentiments as to the ballot. There is bitter antagonism between these factions and what they say of each other at times would not get by in a parliamentary discussion. But to those who did not know the distinctive badges it would appear from the scene in the senate that there was a swarm of women all tremendously interested in the vote which never came off.

It would be hard to find two men farther removed from each other in their ideas generally than Senators Nelson of Minnesota and Vardaman of Mississippi. Whenever they take sides on a question it is pretty sure that they will be found opposing one another. This happened on the proposition to lower the draft age to eighteen. Vardaman denounced the proposal and admitted that he did so on sentimental grounds. "But," he remarked, "the world is controlled by sentiment and not even the armies, the cannon, the shot and the shell will contribute more to winning the war than sentiment." On the other hand Senator Nelson intimated that he considered Vardaman's attitude "manly" and reverted to the Civil war as proof that it is the young men who make the best fighters.

At last an official explanation has been made why a member of the house or senate is not permitted under the rules to mention a member of the opposite house in debate. Congressman Johnson of Kentucky was referring to Senator Pomerehne of Ohio in a rather uncomplimentary manner because of the latter's stand on the rent profiteering situation in Washington. Both say they want the evil stopped, but they want to use different methods to do it.

"The rule is that a member of the house cannot discuss a senator at all," stated the speaker, "not even complimentary him, because if you do compliment him somebody might jump up and say he was the greatest pascal in the country, and you would then have on your hands a debate of a very acrimonious nature." The national legislature must not have family quarrels. What would the neighbors and children think?

TERRIBLE CRIME AT LITTLE FALLS

John Wozniak Living 6 Miles South-west of Little Falls Murders His Three Children

SLASHED THROATS WITH RAZOR

Gave Himself up to His Brother and Said: "Well, They Can Hang Me Now"

Special by Telephone from Little Falls, July 12.—One of the most cruel and atrocious murders ever committed near Little Falls was that of John Wozniak who this Friday morning slashed the throats of his three children, two boys aged 5 and 6 and a girl aged 8.

The Wozniak's live on a farm six miles southwest of Little Falls and are well to do and assured of good crops this year.

Wozniak is 45 years old. While the mother was outside in the yard and two larger girls were milking, he stepped to a rear room and killed the three children. A baby of eight months in a cradle was untouched.

He then stepped to the kitchen sink, washed the blood from his hands and face, put on clean clothes, stood in the doorway and told his wife about it when she came to the house.

She nearly collapsed and sunbathing all her strength ran to Wozniak's brother and the latter took the demented man in charge and brought him to Little Falls.

"Well, you can hang me," was all Wozniak said.

The man is believed to have gone insane while brooding over crops and harvesting. He was fearful lest the crops spoil and the children would starve.

ROLL OF HONOR

Corp. Wm. D. Everest, 40th Inf., spent a five day furlough with his parents, Mr. and Mrs. W. H. Everest. He returned to Ft. Sheridan, Ill., on Saturday. He says the boys are anxious to go "over."

Sergt. Art Turcotte, now stationed in a truck company at Chicago, came to Brainerd Thursday on a short furlough, traveling by train to Little Falls and thence by automobile to Brainerd. Men of his company are soon to take trucks to Baltimore, O.

Pvt. George Anderson, formerly a commercial traveler, is home on a short furlough. George said he had been doing more hiking since in the army than all the mileage he had ever pulled.

Bill Turcotte writes from Camp Kearny Cal., that he has been shifted again and is now in Headquarters company, 159th Infantry. He writes he has seen very little of the country and had no chance to go to town. He just got out of quarantine. "Am going to have sweet corn for supper, so will close as I am hungry," said Mr. Turcotte at the finish.

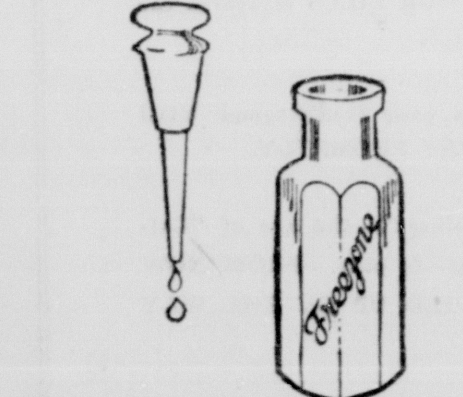

A letter to the Crosby Courier from Milton H. Mahlum states that he is now stationed at Camp Hancock, Georgia. He is a member of the 6th Casual Co., First Regiment. Milton states that the weather there is rather warm and the boys get five hours drilling every day, but that they enjoy it very much.

A. N. Anderson of Minneapolis was a guest of his father H. Anderson and cousin A. J. Ellison, returning today to his home from which place he will soon entrain for Camp Wadsworth, S. C.

LIFE AT CAMP DODGE

A. N. Brekke of the Brainerd Tribune Force Writes of His Impressions of Camp Life

In a letter from Camp Dodge, Iowa, to a Brainerd friend, A. N. Brekke, of the Brainerd Tribune force, says:

"This rookie life is sure great. However, I have no reason to complain about hardships, as I have been assigned to duty in Lieutenant McMurray's office. This morning and afternoon he and I were kept busy mustering in new recruits that are arriving here daily. A hundred questions are asked each recruit about his past life, etc. The camp at the present time is housing about 30,000 white and colored troops. The heat of today has been intense. Several rookies from this company, I was told became exhausted and fell out and were taken to the base hospital. Most of the men in this company are from Missouri, and they are the typical Missourians, too. Across the street from our barracks are the barracks of the colored troops.

"I think I am going to like it here, but it is pretty early to give you anything definite. The change from civil life to that of a soldier is such a radical one that a few weeks are required before a fair report can be given.

"This battalion's band is playing near the barracks where I am using this machine. If you have never visited a cantonment you can little realize the magnitude of one. I have not as yet got any drilling and I suppose that the Lieutenant is going to keep me in his office, as he instructed the sergeant yesterday to excuse me from police and fatigue duty, etc. There is much red tape in the army and much clerical work that requires exacting execution has to be performed. "I have not been examined as yet and no clothing has been issued to me. "Give my regards to all the boys in the office."

WRITES FROM FRANCE

Pvt. W. H. Hashbarger Thanks Mrs. Bertha Theviot for Box of Lunch Given Him

In a letter to Mrs. Bertha Theviot, Pvt. W. H. Hashbarger, Co. A. 123 M. G. Bn., American Expeditionary Force, thanks her for the box of lunch given him when the Beltrami county boys passed through Brainerd. He says:

"I am sure it was the best box in the train and I enjoyed the lunch and took very much. I spent six weeks at Camp Dodge, three weeks at Camp Logan, Houston, Texas, and ten days at Camp Upton, N. Y., and have been in France two weeks. I am in a machine gun company."

ROLLED INTO RIVER

Fished Out by St. Cloud Citizens, Arrested for Drunkenness, Then Accused of Other Offense (St. Cloud Journal-Press)

Henry Geuth of Brainerd was picked up and lodged in the city jail on a charge of drunkenness. Geuth was lying near the bank in Empire park and rolled over and down the bank into the river. Several St. Cloud citizens pulled him out of the river and he was lodged in the police station. He was fined \$1.00 and costs for drunkenness or fifteen days in jail.

After he became sober the local authorities discovered that he was the same fellow who had passed the worthless check on one of the local banks sometime in January. He is now being held in the city jail endeavoring to get enough money to pay his fine and the amount of the worthless check.

RELAYING WATER MAIN

Water and Light Board Busy on Oak Between 14th and 17th Streets

The water and light board is relaying with a six inch main the water main on Oak street between 14th and 17th streets, putting it at seven and a half feet depth. The old main was but four inches and set shallow and constantly froze up in winter to the inconvenience of a whole community. Laborers are wanted by the city to work on this job.

STRANGE PEST IN THE WHEAT

Eats Growing Wheat, Kills it at First Joint, and Leaves Tops Yellow and Dead

JUDD WRIGHT REPORTS DAMAGE

P. B. Anderson had Some in Crow Wing Township, Long Lake is Also Heard From

Farmers of Crow Wing county are alarmed over the appearance of a bug or something which is attacking ripening wheat and killing it at the first joint. It is no rust or blight, but looks like the work of a strange bug.

Judd Wright reported some in his wheat just across the Mississippi river from Brainerd. P. B. Anderson had some at his farm in Crow Wing township south of Brainerd. Long Lake township also reports a visitation of the pest. The wheat is attacked near the head and quickly turns yellow and dies. Wheat will probably be cut in three weeks.

Samples of the affected wheat are to be gathered and sent to the University farm for inspection and a remedy to check the evil.

Rye will go fully 18 bushels to the acre and looks fine. Oats is short and not looking so good. Barley is a fair crop. Potatoes will form a tremendous yield.

MRS. LYDIA A. CONANT

Resident of Brainerd 48 Years. Passed Away at the Home of Her Son

Mrs. Lydia A. Conant, age 86, pioneer of Brainerd, died of complications from old age at the home of her son, J. C. Conant, 910 South 7th street. She came to Brainerd by stage from St. Cloud and Crow Wing, 48 years ago, when Brainerd had but half a dozen houses and was a tented community with no railway.

She leaves a son and sister, Mrs. Mary Rooney of Keweenaw, Wis. She was born March 25, 1833 at Amsterdam, Montgomery county, New York. She enjoyed the friendship of many people and until the last was in possession of her faculties and was conversant with current events and followed with intense interest every phase of the great war.

The funeral will be held at 2 o'clock Saturday afternoon from the residence, Rev. W. J. Lowrie officiating.

BIG BLUEBERRIES

Pete Cardie says They are as Big as Plums Out Around Ossipee

A. P. Cardie, better known as "Pete", who has always enjoyed a reputation for truth and veracity, etc., says the blueberries near Ossipee are as big as plums and grow in clusters like grapes.

In all his experience in the woods as deputy game warden and as barber in Brainerd and hunter and fisherman in vacation time, Pete said he never saw anything like it.

Wherever the berries were missed by fire, there they are growing in profusion. He was out in that country with his car and came home with several barrels full.

ST. PAUL DISPATCH STORY IS WRONG

The story in the St. Paul Dispatch this morning on the sugar situation is not correct said the Federal Food Administration at St. Paul in answer to a query from County Food Administrator Andrew E. Berglund.

It was given correctly in the Minneapolis Tribune. Written instructions as received by Mr. Berglund and published in the Brainerd Dispatch on sugar are correct and must be followed.

"Please adhere rigidly to them," wired the Federal Food Administration.

The paragraphs in the St. Paul Dispatch objected to as incorrect are these:

"It appears that all do not understand that every household is allowed 25 pounds of sugar for canning in addition to the 3 pounds a person a month. The 25 pounds for canning can be increased to 100 pounds in successive installments of 25 pounds each as the preceding order is exhausted.

"Sugar for canning can only be obtained by a certificate from the county food administrator."

Instead of 100 pounds to a family they can secure but 25 pounds for canning provided they have not had sugar issued for canning previously.

NOTED COW GIRL TO APPEAR

Western Frontier Exhibition a Part of the Hagenbeck-Wallace Exhibition

One of the genuine novelties offered by the Hagenbeck-Wallace circus this season is its genuine and historically correct Wild West and Cheyenne Frontier exhibition, participated in by sixty cowboys and cowgirls from the far west. When the parents of the present generation were boys and girls there lived on the western plains a great body of hardy heroes who acted as guardians over herds of cattle that roamed over the trackless plains. The cowboys are fast disappearing before the wake of the settling and cultivation of the western plains.

Miss Elsie St. Varain

When the Hagenbeck-Wallace circus exhibits in Brainerd, Saturday, July 20 a real wild west show will be staged among the numbers. Assembled for this exhibition are the champion ropers, broncho busters cowboys and cowgirls from Montana, Wyoming, Idaho, Texas, Oklahoma and far western Canada. They represent the experts among the different lines exploited by the cowboy in his work and pastime. The "Pony Express," illustrating how the U. S. mail was delivered in the west before the advent of the railroad, will be one of the interesting exhibitions. In this the rider dismounts from his horse while the animal is running at full speed; runs and mounts a fresher horse. The animal is trained to dash away at full speed without any delay to the rider and the mail. Trick riding follows introducing Miss Elsie St. Varain, acknowledged by all western frontier exhibitions to be the

greatest cowgirl of this generation, Miss St. Varain holds medals from the Pendleton (Ore.) Round-up, the Cheyenne (Wyo.) Frontier Exhibition the Calgary (Alberta) Wild West Exhibition and the Walla Walla (Wash.) Platinemen's Exhibition. At every performance Miss St. Varain rides a silver-mounted and diamond-studded \$10,000 saddle, a prize won last year at the Pendleton Round-Up. While fresh bucking horses are continually used in the Wild West exhibitions, yet all owners of bad and outlaw horses are invited to bring them to town circus day that they may be ridden by the Hagenbeck-Wallace champion cowboys and cowgirls. The wilder the horses are, the better they are liked by the wild west performers.

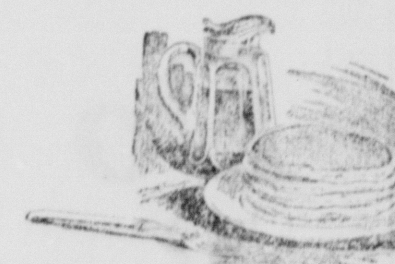

The Hagenbeck-Wallace shows travel this season aboard three special trains, the longest ever used to transport a circus organization. There are in the neighborhood of 1000 people traveling along with the show. In addition to 108 advance men. Six hundred draft horses, 125 head of fleet-footed ring stock, 400 trained wild animals and three herds of elephants are a part of the great organization. Twenty-two tents, which cover twelve acres of ground, are used to house the show in the daytime.

The doors of the Hagenbeck zoological paradise are opened daily at 1 and 7 p. m. An operatic concert by Prof. Fred Jewell's band of 45 soloists lasts thirty minutes and precedes the performances, which begin at 2 and 8 p. m. T three-mile-long gala, golden street parade will be seen at 10 a. m. on the day of the exhibition.

Crisp, Delicious Waffles on the "Wear-Ever" Waffle Mold

and cakes on the "Wear-Ever" Griddle. The Instructor's recipe for waffles calls for cold water, a "Wear-Ever" Waffle Mold—and NO grease and, consequently, NO smoke. Crisp, delicious waffles are not dependent upon grease, but rather upon the mixture of the batter and method of baking.

As much as we know about the baking of waffles; we cannot fully appreciate how perfectly they can be baked—and how easily—until we see and taste those made by the Instructor. A copy of her famous recipe will be given to each lady attending the demonstration.

Save Wheat and Fats

Corn cakes will be baked without grease and without smoke on the "Wear-Ever" Griddle. On request the Instructor will give you the special recipe for corn meal or graham pan cakes.

UKRANIANS IN REVOLT

TEUTONS RUSH TROOPS TO SUBDUE PEASANTS.

New Siberian Government Would Repudiate Brest-Litovsk Treaty and Acknowledge Debt.

Stockholm, July 12.—According to dispatches received here, Ukraina is in a state of countrywide revolution. The Germans are pouring in reinforcements, which now have reached a total of 420,000 men.

The peasants have several small armies of 15,000 to 20,000 each, all well armed with artillery and machine guns. These are defending the villages and whole sections of trenches. The fight is not of a political character, but is due chiefly to the surrender of land by the Germans back to the landlords. Homestead sections 23 miles square have been wiped out. This revolution, together with the increasing power of the Czech-Slovaks in the east, necessitating diversion of considerable German forces, may account in some measure for delay in resumption of the west front offensive.

Repudiate Peace Pact.

London, July 12.—The objects of the new Siberian government include repudiation of the Brest Litovsk treaty and the establishment of a Russian republic with an autonomous Siberia, according to a declaration made by a member of the new government to the Vladivostok correspondent of the Nichi Nichi Shimbun, says a Tokio dispatch. It is also proposed to rehabilitate the army and send troops against Germany. Russia's national debt would be acknowledged, Siberia assuming responsibility for her share.

Orders War Plans Pushed.

Stockholm, July 12.—The Bolshevik war commissariat of the Northern region of Russia, following the landing of Allied troops on the Murman coast, ordered hurried war preparations. It was learned here. Military units have ordered formed and the workmen and peasants of the classes of 1896-97 have been called into service for at least six months. Three hundred Serbian and Italian officers have been arrested at Archangel on order of Premier Lenine, it is reported.

FINDS HER POSITION CHANGED

Mother of Young Girl Explains How She Is Being "Mothered" by Her Daughter.

In an article in the Woman's Home Companion on "The Girl of Seventeen" this mother says:

"She is just past seventeen years of age, is sweetly pretty, innocent, refined, intelligent, talented and is blessed with an open mind, particularly receptive, just now, to all up-to-date ideas in the way of dress fads, social stunts, ragtime melodies, jazz bands, new dances and late coiffures. She is, in two words, my daughter, a lovely child of the period just arrived at the 'know it all' age, and represents the average daughter of this day, a replica of the daughters of other mothers.

"As for me, I am her mother, necessary to her as a housekeeper and pursekeeper, also an admiring audience of one for this very independent young person. A few years ago I added to these titles those of mentor, guide, teacher and comforter, but, to be a bit slangy, within the past year I have lost my job and have fallen from my high estate as leader and manager to the second in command. In fact, the tables have swung completely around and where, only a short time ago, I mothered my baby girl, it is I who am now being daughtered, who am being trained to look upon life, not as a sedate mother person twice and a little more the years of my daughter, but with the eyes of youthful seventeen, who am being skillfully and tactfully imbued, by my very own child, with the latest ideas in regard to living. I am being lovingly required, nay, sweetly compelled, to change by ideas and opinions so that they may conform to hers."

ROMANCE IN RUSKIN'S LIFE

Divergent Religious Views for Long Time Separated Him From the Woman He Loved.

In 1866 Ruskin declared his love for Rosie La Touche and told her parents of his hope to make her his wife. 8223

J. Howard Whitehouse in Scribner's. There was a great difference of years between them. Ruskin was forty-seven; Rosie was in her eighteenth year. There was some natural hesitation on the part of the parents, and it was arranged that the matter should be postponed for three years.

But when the period of probation was ended new difficulties arose. There was hesitation not only on the part of the parents, but also by Rosie. Miss La Touche was of a deeply religious nature, but her views were orthodox and she did not share the wider views on spiritual questions in which Ruskin increasingly believed.

Her love for him had never wavered since the days of her childhood; but she doubted if, holding the views she did, she could marry him. Both she and Ruskin suffered the deepest distress.

For a little time there was estrangement, and there is a moving entry in Ruskin's diary in the year 1870: "Last Friday about twelve o'clock at noon my mistress passed me and would not speak." In the following year there was reconciliation.

The end of Ruskin's dream came in 1875. Miss La Touche's health never strong, began to fail, and she died in May of that year.

Convoy System Reduces Loss.

London, July 11.—Speaking in the house of commons, Sir Leo Money, parliamentary secretary to the industry of shipping, said the percentage of ships lost while homeward bound since Jan. 1, 1918, was more than one per cent. The losses of food ships for the same period was less than ¼ per cent. The result of the convoy system, Sir Leo said, continued to improve. Since January, 1917, 42,000,000 gross tons had been conveyed to British and French ports with a loss up to June 29 of 1.29 per cent.

CANNOT GUESS SIZE

HOW MANY WARSHIPS GERMANY HAS PUZZLES ALLIES.

British and American Naval Commanders View Future With Confidence.

Washington, July 12.—Allied and American navy officials are unable to form any accurate estimate of the present strength of the German battle fleets. It was said by Admiral Benson, chief of naval operations.

Not only are reports as to what Germany has built or is building conflicting, but every effort to secure positive information in regard to the whereabouts and condition of the Russian fleets in the Black and Baltic seas has met with failure.

Naval officials are particularly interested in the dreadnaughts and battle cruisers Germany may have secured by seizure of the Russian fleets. At least eight modern battleships were in the Baltic and Black seas and four battle cruisers were under construction at points in the Gulf of Finland when the Russian collapse came.

It is estimated that if Germany has obtained all Russian war craft and succeeded in putting them into fighting condition she has been able to increase the strength of her high seas fleet by 25 per cent. Admiral Benson was quite positive, however, of the ability of the Allied fleets to deal with the enemy should he venture out.

The chief of operations said information as to the Russian Baltic fleet was unreliable. He was particularly interested in the four battle cruisers which were scheduled for completion in the winter of 1917, but which undoubtedly were delayed by the Russian collapse. The Germans are now in control of the ports where the ships were laid down.

Officials here are convinced that Germany has been building capital ships continuously since the outbreak of the war. They are unable to estimate, however, what number of additional heavy craft may have been commissioned.

NO CENSORSHIP ON THE NEWS

Postmaster General Gives Assurances to Congress.

Washington, July 12.—There will be no censorship of newspaper dispatches under government control of telegraph lines, Postmaster General Burleson assured Congress.

The fear expressed by many members of the Senate that Mr. Burleson, if given control of the wires, would censor all press messages, caused him to tell Senator Lewis, Illinois, that as soon as the wires are taken over, newspapermen will be called in and asked to name one of their members to supervise transmission of press messages.

Housing Concern Created.

Washington, July 12.—The Department of Labor announced the creation of the United States Housing corporation, incorporated under the laws of New York, which will take over virtually all of the functions now being performed by the department's bureau of industrial housing and trans-

portation. All the stock is held by Secretary Wilson on behalf of the United States, except one share each allotted to Otto M. Eidlitz and George G. Box, president and treasurer.

Do You Pay Your Bills?

In the Matter of James Nogood, Bankrupt.

Notice is hereby given that on October 23, 1916, an adjudication of bankruptcy was had against the estate of the above named bankrupt of Nashville, county of Davidson, and in the district aforesaid, and that the first meeting of creditors will be held in my office in the city of Nashville, Davidson county, Tennessee, Nov. 28, 1916, at 10 o'clock, at which time said creditors may attend, prove their claims in accordance with section 57 of the bankruptcy act, appoint a trustee, examine the bankrupt under oath touching his bankruptcy, and transact such other business as may properly come before said meeting.

JOHN DOE, Referee. James Roe, Attorney.

Ever see that notice in the newspaper? It's the final chapter of the man WHO DOES NOT PAY HIS BILLS.

PAYING YOUR BILLS PROMPTLY avoids the courts. It also SAVES HONOR.

Always remember that when you incurred the obligation and the merchant allowed you to take his goods out of HIS HOUSE HE thought YOU WOULD PAY, and you said YOU WOULD PAY—either by word or action.

If you fail—YOU'RE NOT AS GOOD AS YOUR WORD.

Start paying now—BEFORE THE END. Any one can be a bankrupt. That's easy. It doesn't take brains and it doesn't take HONOR.

Paying a hundred cents on the dollar is honorable. Paying less IS DISHONORABLE.

Pay Promptly

A FEW days off is THE FIFTEENTH OF THE MONTH.

Your bills are then due. The proper thing is to pay them all promptly.

If you have overbought—or through some unforeseen and unfortunate circumstance are compelled to put them off—see your merchant. He stands willing at all times TO HELP YOU.

No good merchant wants you to become a "deadbeat" or a "bankrupt." But you will save his time and money by telling him when and what you can do.

He'll be reasonable—if you are reasonable. "Do unto others, etc." is more than 2,000 years old—but the rule is still a good one—and bear in mind IT WORKS BOTH WAYS.

MONDAY IS THE FIFTEENTH. Monday is "pay-up" day. And your reputation for credit is added to or subtracted from then.

You should build up—not tear down. PAY PROMPTLY.

Exit--The Deadbeat

Every month your credit rating becomes better or worse. It all depends upon how you pay. Probably not a month passes but what you make a purchase and ask for credit. Whether you get the credit or not depends entirely upon how you PAY YOUR BILLS.

The BUSINESS MEN'S ASSOCIATION through their clearing house of credits keep in close touch with how you PAY YOUR BILLS.

If you have an old unpaid bill and try to make a new purchase on credit at some other store—you will be stopped.

The way you PAY YOUR BILLS measures the kind of CREDIT YOU GET.

If you want to keep your credit good YOU MUST PAY UP, AND PAY PROMPTLY.

The day of the "deadbeat"—the age of "Getting By" without paying—is past. FROM NOW ON YOU ARE MEASURED UP BY THE WAY YOU PAY UP.
